Terminal Quantity:

14

Terminal Type:

Wire lead

Mounting Method:

Connector plug

Capacitance Value:

1.0000 microfarads and 0.0027 microfarads and 0.0033 microfarads and 0.0150 microfarads

End Application:

Alcm

Component Quantity:

7

Component Controlling Agency:

Arco/ldp, a division of loral corporation

Component Name:

Capacitor

Component Identifying Number:

Dm-10-101j part no. And dm-10-271j part no. And -39014/02-1419 part no. And -39014/01-1565 part no. And -39014/01-1575 part no. And -39014/02-1340 part no.

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
