Terminal Quantity:

10

Terminal Type:

Wire lead

Mounting Method:

Connector plug

Capacitance Value:

33.0 picofarads and 180.0 picofarads and 680.0 picofarads

End Application:

Alcm

Component Quantity:

5

Component Name:

Capacitor

Component Identifying Number:

-39014/01-1330 part no. And -39014/01-1344 part no. And -39014/01-1354 part no.

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T172-f
