Terminal Quantity:

10

Terminal Type:

Solder stud

Mounting Method:

Terminal

Capacitance Value:

150.0 microfarads

Capacitance Tolerance In Percent:

-15.0/+50.0

Component Quantity:

5

Component Name:

Fixed electrolytic capacitor

Component Identifying Number:

-39006/01-3046 part no.

Electrical Connection Method:

Parallel

Component Relationship:

Not matched

Working Voltage Rating:

50.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
