**Terminal Quantity:**

3

**Terminal Type:**

Wire lead w/lug

**Mounting Method:**

Terminal

**Capacitance Value:**

0.15 microfarads

**Capacitance Tolerance In Percent:**

-10.0/+10.0

**Component Quantity:**

2

**Component Controlling Agency:**

Strategic systems project office

**Component Name:**

Capacitor, fixed, plastic

**Component Identifying Number:**

3224669 drawing no.

**Component Relationship:**

Not matched

**Working Voltage Rating:**

400.0 volts

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T172-f
