Terminal Quantity:

6

Terminal Type:

Wire lead

Overall Length:

8.125 inches

Overall Height:

3.000 inches

Mounting Method:

Bracket

Capacitance Value:

0.47 microfarads

Capacitance Tolerance In Percent:

-10.0/+10.0

Component Quantity:

3

Component Controlling Agency:

Naval ordance systems command

Component Name:

Capacitor, fixed, paper

Component Identifying Number:

2851449 drawing no.

Component Relationship:

Not matched

Working Voltage Rating:

100.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
