Terminal Quantity:

12

Terminal Type:

Screw

Component Quantity:

6 and 1

Component Controlling Agency:

Us army armament research and development command, chemical systems laboratory

Component Name:

Capacitor, fixed; semiconductor device diode

Component Identifying Number:

D5-19-9566 part no. And jantx-1n5552 part no.

Special Features:

Oc/o bracket, capacitor pn d5-19-9528; bus, bar pn d5-19-9529-1; bus, bar pn d5-19-9529-2; 6-capacitor, fixed pn d5-19-9566; seal, steel, strapping pn b5-19-9582; washer, flat, steel, no. 10 pn ms27183-8; screw, mach, pan hd, stl, no. 1032unf-2a by 0.312 in. Lg pn ms35207-260; terminal pn 79963-46-196; semiconductor device diode pn jantx-1n5552; 21 in. Banding strip, stl, 0.012 by 0.375, acme pn 00266-10102pc; spacer, insulating pn b5-19-9592; and washer, lock, stl, no. 10 pn ms35337-43

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
