Capacitance Value:

0.01 microfarads and 3.3 microfarads

Capacitance Tolerance In Percent:

-10.0/+10.0

Component Quantity:

6 and 1

Component Controlling Agency:

Electronic products division

Component Identifying Number:

129165 drawing no.

Component Relationship:

Not matched

Working Voltage Rating:

50.0 volts and 15.0 volts

Precious Material And Location:

Terminal surfaces gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
