Capacitance Value:

0.1 microfarads and 0.47 microfarads

Capacitance Tolerance In Percent:

-10.0/+10.0

Component Quantity:

2

Component Controlling Agency:

Mcdonnell douglas

Component Name:

Capacitor fixed ceramic

Component Identifying Number:

A06g3322 drawing no.

Component Relationship:

Not matched

Working Voltage Rating:

1000.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
