Terminal Quantity:

16

Terminal Type:

Stud

Overall Length:

2.850 inches

Overall Height:

1.260 inches

Mounting Method:

Terminal

Component Quantity:

13 and 4

Component Controlling Agency:

General electric

Component Name:

Capacitor fixed electrolytic; fixed wire wound resistor

Component Identifying Number:

174d5419 drawing no.

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
