**Reliability Indicator:**

Not established

**Schematic Diagram Designator:**

No common or grounded electrode (s)

**Capacitance Value Per Section:**

10.000 microfarads single section

**Tolerance Range Per Section:**

-20.00/+20.00 percent single section

**Capacitive Electrode Material:**

Tantalum

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A010b0
