Electrolytic Fixed Capacitor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5910-01-396-5484

## Reliability Indicator:

Not established

Schematic Diagram Designator:

No common or grounded electrode (s)

## Capacitance Value Per Section:

10.000 microfarads single section

## **Tolerance Range Per Section:**

-20.00/+20.00 percent single section

## **Capacitive Electrode Material:**

Tantalum

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No
