Terminal Quantity:

8

Terminal Type:

Wire lead

Overall Length:

0.850 inches

Overall Height:

0.800 inches

Mounting Method:

Terminal

Capacitance Value:

220.0 microfarads

Capacitance Tolerance In Percent:

-10.0/+10.0

Component Quantity:

4

Component Controlling Agency:

Oeco corporation

Component Name:

Fixed electrolytic capacitor

Component Identifying Number:

074-20556-02 drawing no.

Component Relationship:

Matched to each other

Working Voltage Rating:

10.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
