Reliability Indicator:

Not established

Schematic Diagram Designator:

No common or grounded electrode (s)

Capacitance Value Per Section:

100.000 microfarads single section

Tolerance Range Per Section:

-2.00/+2.00 percent single section

Capacitive Electrode Material:

Tantalum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A010b0
