Capacitor Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5910-01-424-2953 **Terminal Quantity: Terminal Type:** Wire lead **Mounting Method:** Plate **Capacitance Value:** 440.0 microfarads **Capacitance Tolerance In Percent:** -10.0/+10.0 **Component Quantity:** 2 **Mounting Configuration:** Eight machine flat head screws with four on opposite sides **Component Controlling Agency:** Argo systems inc **Component Name:** Capacitor, fixed, electrolytic **Component Identifying Number:** 4000-02354 drawing no. **Component Relationship:** Matched to each other **Working Voltage Rating:** 10.0 volts Shelf Life: N/a **Unit Of Measure:** Demilitarization:

No **Fiig:** T172-f
