**Terminal Quantity:**

30

**Terminal Type:**

Screw

**Mounting Method:**

Terminal

**Capacitance Value:**

4200.0 microfarads

**Capacitance Tolerance In Percent:**

-10.0/+50.0

**Component Quantity:**

15

**Component Controlling Agency:**

Northrop grumman corporation

**Component Name:**

Capacitor, fixed, electrolytic

**Component Identifying Number:**

6109d81g01 drawing no.

**Component Relationship:**

Matched to each other

**Working Voltage Rating:**

300.0 volts

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T172-f
