Mounting Method:
Terminal
Capacitance Value:
82.0 microfarads
Capacitance Tolerance In Percent:
-10.0/+10.0
Component Quantity:
6
Component Controlling Agency:
Honeywell, inc.
Component Name:
Fixed, electrolytic, capacitor
Component Identifying Number:
8520273 drawing no.
Component Relationship:
Matched to each other
Working Voltage Rating:
125.0 volts
Shelf Life:
N/a
N/a Unit Of Measure:
. 4 4
