Mounting Method:

Any acceptable

End Application:

150A-11-1MO-TOR6

Component Relationship:

Matched for resultant resistance

Special Features:

Two hermetically sealed 150 microfarad capacitors with cover; manufacturer name cover/capacitor assembly

Functional Description:

Series of capacitors inside of a cover that goes on motor 150a111 and acts as a filter

Relationship To Similar Equipment:

Similar to 700a113 which is not hermetically sealed and includes two 65 microfarad capacitors; 700a126 is hermetically sealed with two 150 microfarad capacitors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
