Terminal Quantity:

16

Mounting Method:

Potted

Capacitance Value:

22000.0 picofarads

Component Quantity:

12

Electrical Connection Method:

Parallel

Component Relationship:

Matched to each other

Working Voltage Rating:

10.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
