Terminal Quantity:

10

Width:

6.380 inches

Thickness:

5.380 inches

Length:

7.250 inches

Capacitance Tolerance In Percent:

-10.0/+10.0

End Application:

Joint stars target radar system

Component Quantity:

6

Component Controlling Agency:

037z3-dscc

Component Name:

Capacitor assembly, fixed, reconstituted mica dielectric

Component Identifying Number:

Mil-c-5 drawing no.

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f

Mil-std (military Standard):

Mil-c-5 spec.
