Terminal Quantity:
10
Width:
6.380 inches
Thickness:
5.380 inches
Length:
7.250 inches
Capacitance Tolerance In Percent:
-10.0/+10.0
End Application:
Joint stars target radar system
Component Quantity:
6
Component Controlling Agency:
037z3-dscc
Component Name:
Capacitor assembly, fixed, reconstituted mica dielectric
Component Identifying Number:
Mil-c-5 drawing no.
Component Relationship:
Not matched
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T172-f
Mil-std (military Standard):
Mil-c-5 spec.
