End Application:

Input/output filtering for military and high reliability power supplies and high capacitance discharge units that work at high frequencies or high power.

Nonderated Operating Temp:

125.0 degrees celsius and -55.0 degrees celsius

Special Features:

50 to 100 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A010b0
