Terminal Quantity:

1

Terminal Type:

Connector

Width:

2.000 inches

Thickness:

0.500 inches

Length:

11.500 inches

Mounting Method:

Thread insert

End Application:

Ac 130h aircraft

Component Quantity:

8

Component Controlling Agency:

Military specifications

Component Name:

Capacitor, fixed, electrolytic

Component Identifying Number:

-39006/16-2049 part no. Or -39006/16-2039 part no.

Electrical Connection Method:

Parallel

Component Relationship:

Not matched

Special Features:

Module, capacitor assembly, computer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T172-f
