Product Name:

Multilayer capacitors

Special Features:

Environmental tests: thermal shock, moisture resistance, low voltage humidity, life test, quality factor, temperature coefficient of capacitance, insulation resistance, working voltage, dielectric withstanding voltage, retrace, aging effects, piezoelectric effects, capacitance drift, operating temperature range, terminations styles, terminal strength

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A010b0
