Body Style:

Chip type

Body Length:

0.138 inches

Body Width:

0.110 inches

Body Height:

0.043 inches

End Application:

Aircraft applications

Product Name:

Solid chip capacitor

Special Features:

Tantalum solid chip-precision molded; case size b; picofarad code 10 plus 5 zeros; capacitance tolerance plus or minus 20 percent; voltage 16 at plus 85deg c; failure rate-not applicable; lead material standard solder-coated (90percent sn/10percent pb)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A010b0
