Terminal Length:

3.2 millimeters

End Application:

Capacitor, fixed, ceramic

Product Name:

General multilayer ceramic chip capacitors c series

Special Features:

A monolithic structure ensures superior mechanical strength and reliability; low stray capacitance ensures high conformity with normal values, thereby simplifying the circuit design process; low residual inductance assures superior frequency characteristics

Special Test Features:

Temperature range: -55 to 85 degrees celcius; rated voltage range: 10 v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A010b0
