Body Style:

Chip type

Body Length:

0.110 inches

Body Width:

0.110 inches

Body Height:

0.102 inches

Product Name:

Atc100b series porcelain superchip multilayer capacitor

Special Features:

High q; capacitance range 0.1pf to 1000pf; ultra-stable performance; low esr/esl; high self-resonance; low noise; established reliability (qpl); available with encapsulation option.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A010b0
