Ceramic Dielectric Fixed Capacitor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5910-01-645-4981

Body Length:
1.0 millimeters
Body Width:
0.5 millimeters
Capacitance Value Per Section:
10.0 microfarads 1st section
Voltage Tempurature Limits Per Section In Percent Capacitance Change:
-55.0 to 125.0 with rated voltage applied 1st section
Product Name:
Miltilayer ceramic chip capacitors
Special Features:
High-accurancy automatic mounting, composed of only ceramics and metals, low stray capacitance ensures high conformity with values,
capacitance tolerance plus or minus 10%, packaging style taping (reel)
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A010b0
