Body Length:

1.0 millimeters

Body Width:

0.5 millimeters

Capacitance Value Per Section:

10.0 microfarads 1st section

Voltage Temperature Limits Per Section In Percent Capacitance Change:

-55.0 to 125.0 with rated voltage applied 1st section

Product Name:

Multilayer ceramic chip capacitors

Special Features:

High-accuracy automatic mounting, composed of only ceramics and metals, low stray capacitance ensures high conformity with normal values, capacitance tolerance plus or minus 10%, packaging style taping (reel)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A010b0
