Overall Height	:
3.350 inches	
Body Length:	
3.750 inches	
Body Width:	
2.000 inches	
Body Height:	
2.000 inches	
Vibration Resi	stance Range In Hertz:
+10.0 to 500.0	
Operating Ten	npurature Range:
-45.0 to 100.0	degrees celsius
Source Imped	ance Rating Per Function:
50.0 ohms 1st	adio interference 1st function50.0 ohms 2nd radio interference 2nd function
Load Impedar	ce Per Function:
50.0 ohms 1st	adio interference 1st function50.0 ohms 2nd radio interference 2nd function
Power Line Fr	equency Rating Per Function In Hertz:
60.0 1st radio i	nterference 1st function60.0 2nd radio interference 2nd function
Operating Cur	rent Rating Per Function In Amps:
3.0 1st radio in	erference 1st function3.0 2nd radio interference 2nd function
Principal Circ	uitry Type Per Function:
Inductance-cap	acitance 1st radio interference 1st function inductance-capacitance 2nd radio interference
Mounting Fac	lity Screw Thread Series Designator:
Unc	
Inclosure Typ	2:
Hermetically se	aled
Mounting Fac	lity Type And Quantity:
4 threaded hole	
Functional Te	minal Type And Quantity:
1 connector, re	eceptacle input 1st function2 threaded stud output 2nd function2 threaded stud ground 3rd function
Operating Vol	age Rating And Type Per Function:
125.0 volts ac	st radio interference 1st function125.0 volts ac 2nd radio interference 2nd function
Thread Size:	
0.164 inches	
Body Material	
Metal	
Unpackaged L	Init Weight:
1.250 pounds	
Style Designa	tor:
	minal/terminals on opposite surfaces
Shelf Life:	
-	

Radio Frequency Interference Filter - Page 2 of 2

Unit Of Measure:

Demilitarization:

No

Fiig:

A047b0
