Operating Temperature Range:

-54.0/+75.0 degrees celsius

Reference Frequency Per Function:

10.0 kilohertz blank

Source Impedance Rating Per Function:

600.0 ohms blank

Load Impedance Per Function:

600.0 ohms blank

Inclosure Type:

Encased

Insertion Loss At Reference Frequency Per Function In Decibels:

0.5 blank

Functional Terminal Type And Quantity:

1 pin output 2nd function

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
