**General Description:**

37 to 47v operating voltage range, 0.5 amp, minus 50 to plus 100 degrees c operating temp range, 1 transistor, 1 capacitor, 1 semiconductor device diode, 1 variable resistor, 1 fixed resistor, 2 turret type terminals, one 0.469 in. Diameter mtg hole, encapsulated, 0.920 in. Lg incl terminals, 1.500 in. Dia

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
