Special Features:

Produces pulse length of 0.33 microsecond at 50 pct amplitude, 0.18 microsecond at 90 pct amplitude, pulse rate min 0.29, max 0.37 microsecond at 50 pct amplitude, pulse width min 0.14, max 0.22 microsecond at 90 pct amplitude, repetition rate of 1350 pulses per second terminating to 35 ohm resistance load, 8.125 in. Lg, 4.938 in. W, 4.438 in. H excluding terminals, hermetically sealed, oil filled

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
