Operating Temperature Range:

-55.0/+100.0 degrees celsius

Reference Frequency Per Function:

59.85 megahertz blank

Source Impedance Rating Per Function:

500.0 ohms blank

Input Impedance Per Function W/load:

500.0 ohms blank

Inclosure Type:

Encased

Insertion Loss At Reference Frequency Per Function In Decibels:

5.0 blank

Frequency Band Width Per Function:

57.35 megahertz blank and 62.35 megahertz blank

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
