Test set, countermeasures set type an/alm-88

## **General Description:**

Consists of connector 1; resistor 2; semiconductor device 3; plug 2; terminal lug 3; 200 volts ac max; 3.812 in. Lg; 1.750 in. W

## **Fsc Application Data:**

Test sets, electronic systems, except specially designed

Shelf Life:

N/a

**Unit Of Measure:** 

Demilitarization:

No

Fiig:

A23900
