Vibration Resistance Range In Hertz:

+10.0/+500.0

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Average Life Rating In Hours:

10000.0

Input Terminal Manufacturer Code:

02660

Input Terminal Identification:

348-25h16-27p1

Mounting Facility Screw Thread Series Designator:

Unc

Inclosure Type:

Encased

Mounting Facility Type And Quantity:

1 threaded hole

Functional Terminal Type And Quantity:

8 turret output 2nd function

Thread Size:

0.138 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
