Capacitor Resistor Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5915-00-535-9958

General Description:

Eight resistors, two capacitors, metal case, two no. 8 /0.164 in./ - 32nc-2a thd studs spaced on 0.272 in. Mtg centers, seven solder lug type terminals, 3.400 in. Lg, 1.462 in. W, 4.141 in, h incuding mtg studs, 0.0 degrees to plus 52.0 degrees c operating temperature range, 300 v dc input voltage, complete assembly except mtg surface shall be given a zinc chromate primer plus two coats of gray lacquer, 10 to 55 hz viberation resistance range, 10000 feet maximum operating altitude
