Reference Frequency Per Function:

77.0 2nd radio interference two phase to two phase

Source Impedance Rating Per Function:

50.0 ohms 2nd band suppression

Load Impedance Per Function:

50.0 ohms 2nd band suppression

Inclosure Type:

Hermetically sealed

Insertion Loss At Reference Frequency Per Function In Decibels:

3.0 1st band suppression

Functional Terminal Type And Quantity:

2 pin output 2nd function

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
