Body Length:

0.750 inches

Body Outside Diameter:

0.312 inches

Source Impedance Rating Per Function:

50.0 ohms blank

Load Impedance Per Function:

50.0 ohms blank

Inclosure Type:

Encased

Mounting Facility Type And Quantity:

2 terminal

Functional Terminal Type And Quantity:

1 wire lead input 1st function

Style Designator:

Round terminal/terminals on opposite surfaces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A047b0
