Operating Temperature Range:

-20.0/+80.0 degrees celsius

Reference Frequency Per Function:

25.0 hertz blank

Source Impedance Rating Per Function:

50.0 ohms blank

Load Impedance Per Function:

50.0 ohms blank

Inclosure Type:

Encased

Insertion Loss At Reference Frequency Per Function In Decibels:

1.0 blank

Functional Terminal Type And Quantity:

2 wire lead ground 3rd function

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
