Special Features:

RANG-E2-20K-HZTO

Functional Description:

Bridged-t notch filter; unit is primarily intended for use with radio receivers or tunable voltmeters to allow the use of their full sensitivity in presence of a strong undesired signal; where several undesired signals of high amplitude are present, the filter may be connected in tandem to reduce them to desirable levels

Supplementary Features:

Manufacturers name: filter, tunable rejection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A047b0
