Reliability Indicator:

Not established

Body Length:

1.250 inches

End Application:

M551 vehicle family

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal all groupings

Special Features:

Includes semiconductor device-11640438-1; encased by insulation sleeving-m23053/5-108-0

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
