**Operating Temperature Range:**

-29.0/+52.0 degrees celsius

**Special Features:**

4continously variable from 0-180 degrees min by rotation Of phase shift control; additional 180 or 0 degrees fixed phase by 2-position switch;  
0-360 degrees min total phase shift range; 0.5 watt power handling; 34 turns adjusting shaft; 2.3 db maximum insertion loss

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A512x0
