Overall Length:

21.450 inches

Overall Height:

3.620 inches

Overall Width:

16.880 inches

Reference Frequency Per Function:

399.0 hercules no.5599.1 pulses per second

Voltage Standing Wave Ratio Per Function:

2.1 single band pass

Inclosure Type:

Encased

Insertion Loss At Reference Frequency Per Function In Decibels:

2.0 2nd band pass

Special Features:

Provides selectivity and isolation for radio set when operating from a common antenna with other radio sets

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A047b0
