| Overall Length:                                                               |
|-------------------------------------------------------------------------------|
| 1.719 inches                                                                  |
| Overall Height:                                                               |
| 1.032 inches                                                                  |
| Body Length:                                                                  |
| 1.125 inches                                                                  |
| Body Width:                                                                   |
| 1.000 inches                                                                  |
| Body Height:                                                                  |
| 0.688 inches                                                                  |
| Unthreaded Mounting Hole Diameter:                                            |
| 0.140 inches                                                                  |
| Distance Between Centerlines Of Mounting Facilities Parallel To Body Length:  |
| 1.438 inches                                                                  |
| Vibration Resistance Range In Hertz:                                          |
| +10.0/+500.0                                                                  |
| Operating Tempurature Range:                                                  |
| -55.0/+85.0 degrees celsius                                                   |
| Source Impedance Rating Per Function:                                         |
| 50.0 ohms blank                                                               |
| Load Impedance Per Function:                                                  |
| 50.0 ohms blank                                                               |
| Operating Current Rating Per Function In Amps:                                |
| 0.1 blank                                                                     |
| Maximum Voltage Drop Per Function:                                            |
| 3.0 volts dc blank                                                            |
| Principal Circuitry Type Per Function:                                        |
| Inductance-capacitance blank                                                  |
| Maximum Tempurature Rise:                                                     |
| 25.0 degrees celsius                                                          |
| Full Load Insertion Loss Frequencies In Megahertz:                            |
| 0.0 and 0.1 and 0.15 and 1.0 and 10.0 and 100.0                               |
| Full Load Minimum Insertion Loss At Specificationified Frequency In Decibels: |
| 27.0 and 45.0 and 53.0 and 58.0 and 61.0                                      |
| Inclosure Type:                                                               |
| Encased                                                                       |
| Mounting Facility Type And Quantity:                                          |
| 2 unthreaded hole                                                             |
| Functional Terminal Type And Quantity:                                        |
| 1 tab, solder lug input 1st function1 tab, solder lug output 2nd function     |
| Operating Voltage Rating And Type Per Function:                               |

300.0 volts dc blank
