**Overall Height:**

0.620 inches

**Body Length:**

0.335 inches

**Body Width:**

0.110 inches

**Body Height:**

0.370 inches

**End Application:**

Navigation set, radio an/srn-19

**Reference Frequency Per Function:**

500.0 kilohertz blank

**Source Impedance Rating Per Function:**

50.0 ohms blank

**Load Impedance Per Function:**

50.0 ohms blank

**Inclosure Type:**

Encased

**Mounting Facility Type And Quantity:**

2 terminal

**Insertion Loss At Reference Frequency Per Function In Decibels:**

3.0 blank

**Functional Terminal Type And Quantity:**

1 pin output 2nd function

**Frequency Band Width Per Function:**

498.00 kilohertz blank and 502.00 kilohertz blank

**Style Designator:**

Rectangular terminal/terminals on one surface

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A047b0
