End Application:

An/flr-9 dfdc

Precious Material And Location:

Contacts silver

Precious Material:

Silver

General Description:

Aluminum alloy; consists of 25 filtered contacts integral to the electrical connector receptacle; 2.088 in. length; 0.592 in. width; 1.022 in. height; 200.0 volts dc dielectric withstanding voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
