Overall Height:

1.200 inches

Body Length:

2.000 inches

Body Width:

0.400 inches

Body Height:

0.800 inches

End Application:

490I overseas autovan

Functional Terminal Type And Quantity:

2 pin input-ground and 2 pin input and 2 pin output

Special Features:

Insertion loss closely held to $\pm 0.5\text{dBmax}$; low pwr dissipation $\pm 14\text{mA}$ typical- $\pm 20\text{mA}$ max; 2800hz is 58dbattenuation typical; input impedance $>10\text{k}$; output imped $<25\text{ohms}$; 28nf-1 is small, modular, high performance; low pwr; filter is packaged to be compatible with standard 17 pin stp layout

Style Designator:

Rectangular terminal/terminals on one surface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A047b0
