Filter Quantity:

2

End Application:

B1b alq-161

Filter Type:

Radio interference

Special Features:

Contains 1 filter housing, 1 receptacle connector, 1 emi gasket, 2 solder lug terminals, 2 end seal plugs; filters are hermetically sealed with -55c degrees to +125c degrees operating temp and 28 volts dc voltage; each filter has a metal case; filter 1 is 20 amperes current, 34 grams weight, approx. 2.573 in. Lg, .702 in. Ht; filter 2 is 10 amperes current

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
