End Application:

Awads radar b kit

Special Features:

Operating temp -55 c to +85 c; load impedance 51 ohms; pulse repetition rate 925 pps max; peak charge voltage 7.50 kvolts dc; peak discharge current 75 amps; terminal to terminal dielectric withstanding voltage 15, 000 vdc, terminal to case and inserts 16, 000 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A512c0
