End Application:

Awads radar b kit

Special Features:

Network, pulse forming; item consists of 5 capacitors, will operate within temperature of -55 degrees c to +85deg c, tolerance range +/- 5%, peak discharge current 103 amps, impedance 62 ohms , peak charge voltage 14 kilovolts dc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A512c0
